

THANK YOU

Your 2014 Annual Report

CHANGING MOMENTS

Through Giving

ROPER  **ST. FRANCIS**
FOUNDATION

DEAR FRIENDS,

Last year marked a significant milestone for Roper St. Francis as we celebrated the Foundation's 10th anniversary Roper Xavier Society Donor Appreciation Gala. This special event recognized ten years of changing moments through giving; a decade of improving patients' lives through your generosity. It is my honor and joy to say "thank you." I am humbled and grateful to know that our donors have committed over \$58 million in gifts and grants since 2005. This annual report outlines some of the ways your support of the Roper St. Francis Foundation has helped us make every moment matter for the people we serve.

Donors have been a part of our health system since our very beginning. In fact, Roper Hospital itself was created with a gift from its namesake, Colonel Thomas Roper, who left an estate gift that enabled the Medical Society of South Carolina to build the first community hospital in the Carolinas. For over 150 years, your impact on the quality of care we provide has been both felt and seen. You have provided life-saving minutes on the Roper Rooftop Helipad and a place of peace and comfort in the Meditation Garden at Bon Secours St. Francis Hospital. With your support, our nationally accredited Roper Rehabilitation Hospital and Cancer Care programs are giving more life-changing moments to our patients and their families.

Thank you for helping us create countless moments of healing and hope. The projects and stories you will read here would not be possible without your commitment to helping us achieve our mission of healing all people with compassion, faith and excellence.

WITH GRATITUDE,

A handwritten signature in black ink that reads "David L. Dunlap". The signature is written in a cursive, flowing style.

David L. Dunlap, FACHE
President and Chief Executive Officer
Roper St. Francis

DEAR GENEROUS DONORS,

What an exciting year 2014 was for the Roper St. Francis Foundation! As we reflect on a decade of advancing the Roper St. Francis mission through philanthropy, we celebrate the loyalty and dedication of our donors, patients and community. With your support, the Roper St. Francis Foundation raised over \$7.6 million in 2014. Thank you for making every moment matter for thousands of people in the Lowcountry.

We are also grateful for the support of our wonderful Foundation volunteers, many of whom have worked passionately by our side for the past decade to improve the quality of healthcare in our community. Your hard work and deep commitment is crucial to our success and growth. You help us connect with our community and celebrate the generosity of our donors every year at our Donor Appreciation Gala. Thank you for sharing your time and talents with us.

We would especially like to recognize two volunteers who have gone above and beyond in their dedication to Roper St. Francis in 2014. We are honored to recognize Gerry King, MD, as the recipient of the 2014 Board Leadership Award sponsored by Haynsworth Sinkler Boyd, P.A.

Dr. King has been a dedicated member of the Roper St. Francis Foundation Board of Directors since 2005. As a leadership-level donor and member of the Roper Xavier Society, he has served as a catalyst for others to declare their support for Roper St. Francis. We are grateful for Dr. King and his wife Betty, who have graciously hosted several events to introduce community members to the Roper St. Francis Foundation.

We would also like to recognize Telfair H. Parker, MD, for his commitment to the Roper St. Francis Foundation. Dr. Parker is the recipient of the 2014 Roper St. Francis Foundation Physician Champion Award, sponsored by Lillibridge Healthcare Services, Inc. This prestigious award honors a distinguished physician who champions the development efforts of the Foundation.

Dr. Parker strongly believes in Roper St. Francis's mission and has continued his father's legacy of exceptional care and service. He has been a member of the Roper Xavier Society for the past seven years and understands the importance of philanthropy in advancing the healthcare mission of providing excellent, comprehensive and compassionate care.

On behalf of the Roper St. Francis Foundation, thank you to Dr. King, Dr. Parker and all of our generous donors and volunteers for helping us bring more life-changing moments to our patients and their families. You are the Foundation's firm foundation, and we are deeply grateful.

GRATEFULLY,

Ashley Wieters Redmond
Executive Director
Roper St. Francis Foundation

John B. Holloway, Jr.
2014 Chairman
Roper St. Francis Foundation
Board of Directors

YOUR GIFTS ARE... giving more moments with the ones we love.

“In some health systems you might feel like a number, but at Roper St. Francis I felt like part of a family. Everyone treated me as though I was their own mother, wife or daughter. Dr. Jeffrey Rose, Dr. Eleanor Oakman, Dr. Stan Wilson and Dr. Mary Decker all saved my life—and in the most compassionate way, they truly exemplify the Roper St. Francis mission.

During my cancer journey I was fortunate to have the Roper St. Francis Cancer Center, with its support groups, writing classes, healing boutique and radiation therapy, all conveniently located in one place. Knowing those resources were close to home was very comforting. The support group I attend is like a sisterhood, not one I ever thought I would belong to, but it’s been a wonderful outlet for sharing stories of hope and rejoicing for those who are healed. Now one year after diagnosis, I am cured, and I’m grateful to have the opportunity to enjoy more time with my husband, children and grandchildren.”

- Mary Slotterback, breast cancer survivor

MOMENTS CHANGED THROUGH GIVING IN 2014

Roper St. Francis Cancer Care

With your support, Roper St. Francis Cancer Care continues to be a regional leader in exceptional cancer care. We treat more adults with commonly diagnosed cancers with exceptional outcomes than anyone else in the Lowcountry. And our charter member partnership with the Levine Cancer Institute, which treats approximately 14,000 newly diagnosed cancer patients each year, means our patients now have access to one of the largest cancer care networks, with cutting edge clinical research, in the country.

We are particularly proud that Foundation donors helped make possible the Donna Fielding Cancer Wellness Institute, which in 2014 began providing a full range of integrated care dedicated to holistic support for cancer patients’ needs—those of mind, body and spirit. This care includes support groups, yoga classes and a Cancer Wellness Navigator who helped 700 patients and their families in 2014 navigate the complexities of cancer treatment along with providing emotional support and guidance.

Thanks to you, Roper St. Francis Cancer Care will continue to expand their resources to be in the forefront in the fight against cancer. Together we can help give more patients and families the life they envision—a life with more tomorrows, a life enhanced and touched by generosity.

YOUR GIFTS ARE... supporting those bravely battling cancer.

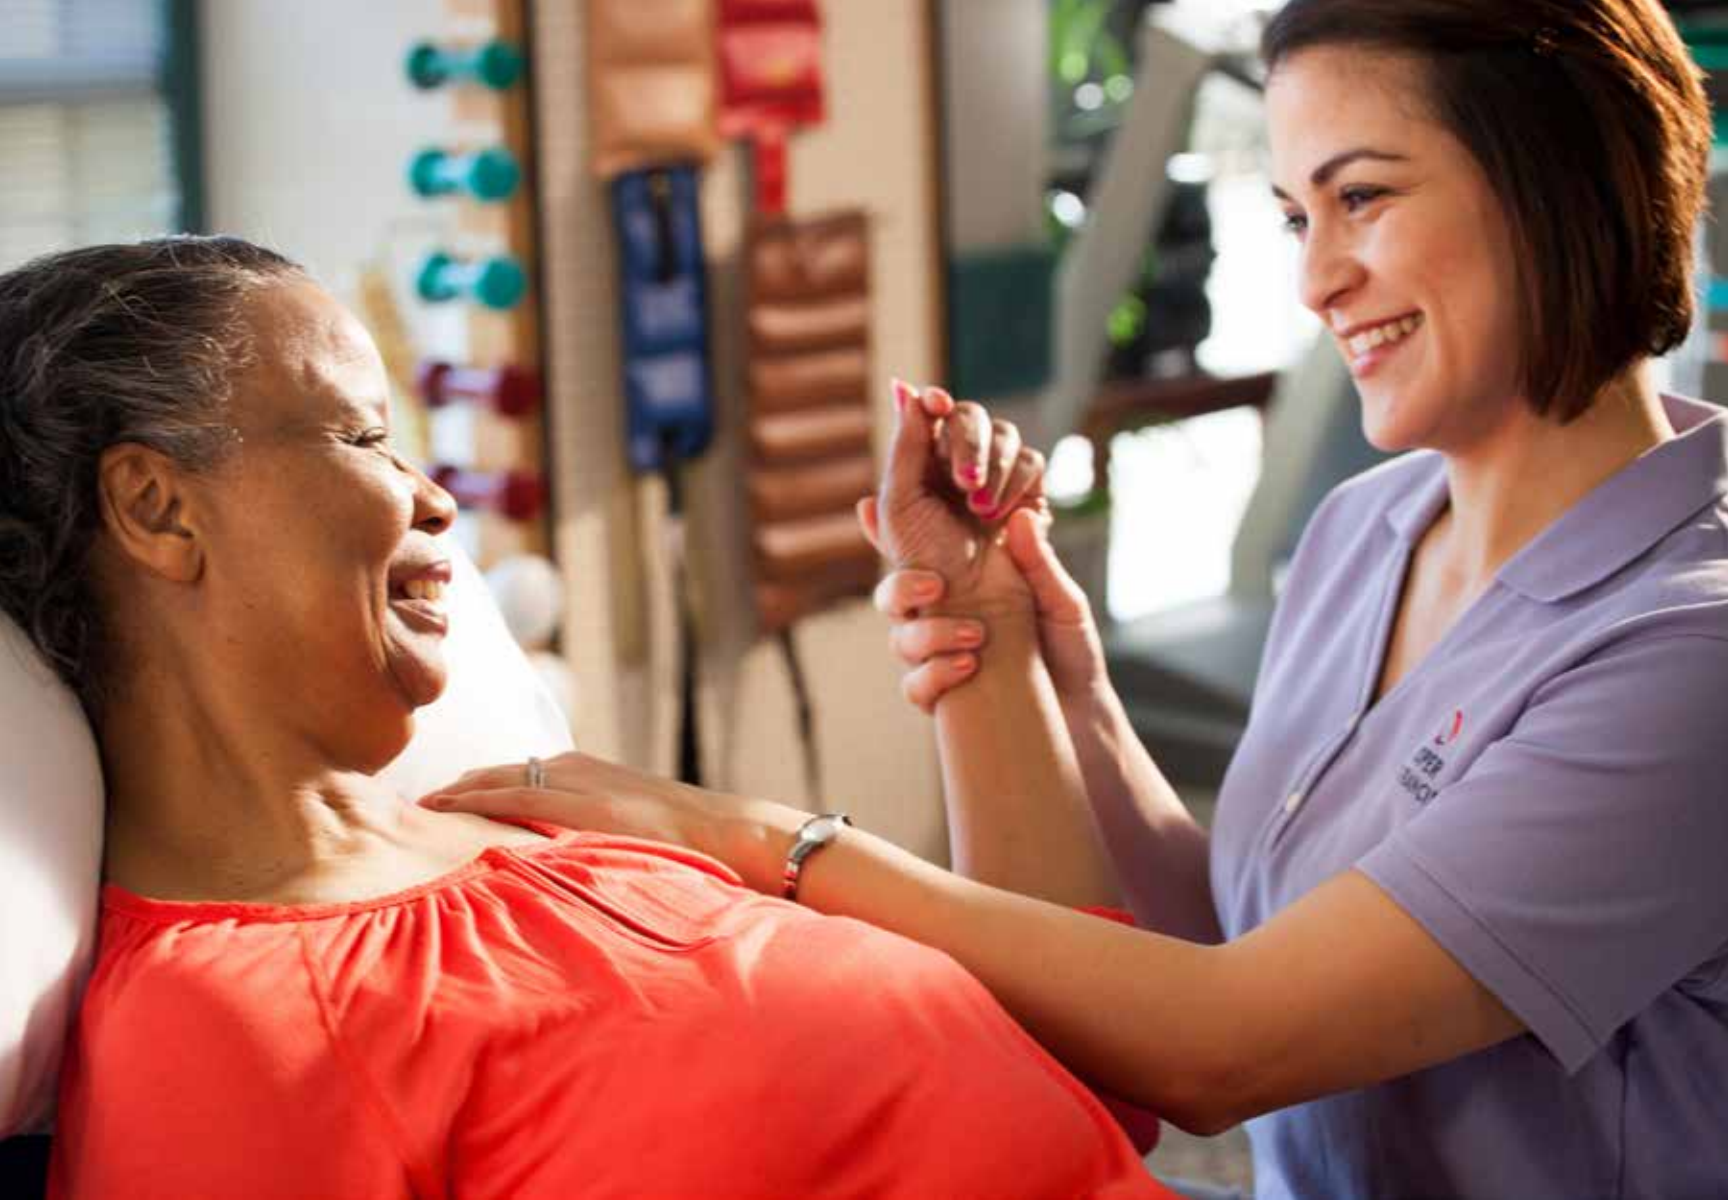

“After I lost my sister to melanoma, I wanted to find a way to continue her fight. I couldn’t give up because she never would have either. I started the Rina Agriss Blair Foundation in her name to help continue her fight, to give an opportunity for our family and friends to celebrate her life and to bring awareness about melanoma to the Charleston community. While Rina was a Roper St. Francis patient for many years, she would consistently say, ‘I don’t know how others with melanoma could do this without a support group.’ She was so fortunate to have such a large one. When we decided to partner with a local hospital, that statement stayed near and dear to my heart. Assisting patients at Roper St. Francis Cancer Care was the perfect choice.”

- Christina LaFountain, Founder/President, Rina Agriss Blair Foundation

In 2014, Rina’s 13-year-old daughter Reyla presented a \$17,000 check from the proceeds of their annual Run 4 Rina to Roper St. Francis Cancer Care. We are grateful for their support and together we will work to honor Rina’s giving spirit by helping cancer patients and their families at Roper St. Francis.

YOUR GIFTS ARE... *empowering heros.*

“On November 6, 2010, my life changed in an instant – I broke my spine in a motorcycle accident. Fortunately the Center for Spinal Cord Injury gave me access to the specialized care I needed. Without the Center I would be lost—they helped me fit into a correct wheelchair and reassert myself back into the community. Before my accident I was a competitive archer, and now, after a decade of not holding a bow and arrow, I am able to enjoy the sport of archery again. Last October, I took home a bronze medal at the Para Pan American Archery Championship in Argentina. Now I’m looking forward to pursuing my goal of qualifying for the 2016 Paralympics in Rio de Janeiro, Brazil.”

- *Ben Thompson*

YOUR GIFTS ARE... *helping people take steps forward.*

“After having three surgeries on my legs, Roper Rehabilitation Hospital gave me my life back. When you suddenly lose mobility, you begin to realize how important your legs are in doing everyday activities like washing your hair or preparing a meal. I was afraid I’d never have a normal life again. Now, thanks to the wonderful staff and the attentive care I received, I enjoy walking in my neighborhood and spending time with my grandchildren again.

I am grateful that my husband and I have the opportunity to support Roper St. Francis. I know firsthand how important it is that our community has a hospital that will be able to take care of me and my family in the future.”

- *Betsy Jones, former Roper Rehab Hospital patient*

Roper Rehabilitation Hospital and Center for Spinal Cord Injury

Since its inception in 2011, the Center for Spinal Cord Injury has been able to offer the best chance of recovery for every patient, every time. Your generosity has enabled the Center to serve more than 300 men and women with debilitating injuries from across the state of South Carolina. In 2014 alone, 82 patients were given life-changing moments through this monthly clinic. Survivors of spinal cord injuries have complex rehabilitation needs, and we are grateful that the Center gives patients access to innovative, quality care closer to home.

Also in 2014, we are delighted to announce that Roper Rehabilitation Hospital received the world’s highest certification for rehabilitation facilities by the Commission on Accreditation of Rehabilitation Facilities (CARF). Our team of certified Brain Injury and Neuro-Clinical specialists sees some 1,100 patients a year and helps them recover from illness or injuries including stroke, brain injury or spinal cord injury, aiming to help them reach their highest possible level of independence. Your continued support means that Roper Rehabilitation Hospital will expand its specialized Wendy and Keith Wellin Neuro-Stroke Unit, offering our patients the best chance possible for making moments matter, moments of improved health and better quality of life.

Area of Greatest Need

Donations designated to the area of greatest need allow Roper St. Francis to fulfill the immediate needs of its patients, teammates, facilities and community. One such need that your unrestricted gifts from 2014 helped us meet is enhancing early breast cancer diagnosis. Through your generosity, the Foundation funded the first 3D Genius with low dose tomosynthesis mammography machines in the Lowcountry. This state-of-the-art technology creates a 3D image of the breast, making cancer easier to detect. Now the 25,000 women who choose Roper St. Francis for their mammography and breast diagnostic services will have the comfort of knowing that our specialists will have the most advanced breast cancer diagnostic technology available.

Your unrestricted gifts are also enhancing our radiation oncology services through the purchase of a new CT Simulator at Roper Hospital. These important investments in technology ensure that our patients have access to the most advanced resources right here in their local community.

YOUR GIFTS ARE... *providing life-saving technology.*

“After our own life-saving experience at Roper St. Francis, Charlotte and I wanted to give back and say thank you. Philanthropy gives us an opportunity to leave a mark on this community, but it works both ways. We are given an opportunity to feel good about our impact and our financial support gives Roper St. Francis the ability to excel.

We are delighted to help Roper St. Francis achieve its goal of providing 3D mammography technology. With the addition of this innovative technology, Roper St. Francis can continue to be a leader in this community and in the fight against breast cancer.”

- *Gene and Charlotte Zurlo*

YOUR GIFTS ARE... *advancing women's healthcare.*

“We are very excited to have the opportunity to provide 3D mammography to women in the Tricounty area. For the patient, the experience will be almost identical to the standard mammogram. And for me as an interpreting radiologist, the new 3D images will increase my ability to detect cancer at earlier stages, and equally important, it will also decrease our call back rate for follow-up images, which will lessen anxiety for our patients.

The tomosynthesis technology will be a tremendous addition to other breast imaging options, including ultrasound and MRI and we are grateful for the donors who contributed to making this possible.”

- *Amy Bethea, MD, Roper Radiologists, PA*

Nursing Scholarships and Education

Roper St. Francis knows that well-trained nurses are vital to the health and safety of our patients. We are committed to nurturing and assisting nurses as they develop and refine their clinical skills through continuing education. The Foundation's Nursing Scholarship Program supports those pursuing an advanced nursing degree. Through your generosity, the Nursing Scholarship Program was able to award 55 new nursing scholarships for continuing their education.

YOUR GIFTS ARE... *preparing and nurturing the nurses of the future.*

"I have worked as an RN for Roper St. Francis for 21 years, and a few years ago I decided to obtain my Master's of Science in nursing in order to work in nursing education. I have always had a special place in my heart for new grads, and enjoyed mentoring them in the ER more than I ever expected I would. I feel that it is our professional duty to nurture and encourage the nurses of our future, but as a single mom, I wouldn't have had the resources to achieve my dream. The Nursing Scholarship Program enabled me to complete my MSN, and I am filled with more joy than ever now doing clinicals with my students."

- Susan Weick, MSN, RN, Roper Rehabilitation Hospital

GRANTS: Navigating Patients to Care in 2014

Each year, the Foundation applies for and receives grants from governmental agencies, foundations, non-profit organizations and corporations to fund health and give hope to patients across the Lowcountry. Grant awards large and small have a profound impact on the lives of patients who benefit from the services provided by departments across the healthcare system, from newborn hearing screening grants to funds to help hospice patients at the end of life.

Roper St. Francis's largest grant programs, the Ryan White Wellness Center and AccessHealth Tri-county Network, focus on helping enrolled chronically ill and disadvantaged clients get access to the right care in the right place at the right time.

The Ryan White Wellness Center: Removing Barriers for Those Living with HIV/AIDS

Thirty years ago, being diagnosed with HIV/AIDS was considered to be a death sentence. Now, thanks to advances in antiviral drugs, care coordination and increased awareness on how to prevent transmission of the virus, HIV/AIDS is considered a chronic rather than terminal condition.

Yet in the Lowcountry and in the state at large, the incidence of HIV continues to grow: the greater Charleston metropolitan area ranks 17th in the nation for incidence per capital of new infections. A recent Duke University study shows that newly infected patients living in South Carolina and eight other southern states are more likely to be diagnosed and die from HIV and AIDS than patients in other parts of the country.

In 2014, grant funding through the Foundation helped more than 700 residents of the Lowcountry living with HIV receive specialized outpatient clinical care, find primary preventative care and maintain stable housing and financial conditions through the Ryan White Wellness Center.

Federally-sourced funds, including nearly \$800,000 in grant awards, help finance the Ryan White Wellness Center. The program's doctors, clinicians, case managers, social workers, program analysts and clinical assistants treat HIV-positive clients holistically, keeping each in HIV-specialized clinical care while ensuring delivery of supportive services such as housing and utility services, spiritual counseling and advocacy.

Peer Mentoring Grant

In 2014, the Ryan White Wellness Center received a nationally competitive Capacity and Development Grant in the amount of \$69,910 from the HIV/AIDS Bureau of the Health Resources and Services Administration to establish a peer mentoring program. This one-time grant will help establish a program that strikes at the heart of one of the greatest challenges to stemming the growth of HIV/AIDS transmission in our area: getting and keeping HIV-positive adults in care.

Led by program director Kimberly Butler Willis and program analyst Aaron O'Brien, the project will improve the program's capacity to prevent people living with HIV/AIDS from falling out of care and to re-engage those who have been lost to care. A team of peer navigators is being recruited and trained from enrolled clients to work directly with those most at risk of falling out of care, including newly referred clients. These peer navigators work alongside medical case management staff to provide non-clinical support during the re-engagement process.

"Peer mentoring programs have proven to make a difference in keeping clients in care," said Aaron O'Brien, a leader in the National Quality Center's In Care Campaign. "This grant provides the resources for us to bring in nationally recognized facilitators to train our peer navigators in motivational interviewing, mentoring and engagement skills that empower patients to take ownership in their care and, most importantly, stay in care."

AccessHealth Tri-county Network: Providing Access for the Lowcountry's Uninsured

Funded by grants from The Duke Endowment and Trident United Way, AccessHealth helps adult uninsured Tri-county residents living at 194% of the Federal Poverty Level who are chronically ill and are high-utilizers of the Charleston area safety-net system.

In 2014, AccessHealth assisted nearly 2,500 clients in finding access to primary and specialty clinical care as well as governmental benefits and supportive services such as behavioral health and housing services, transportation, food, eye exams and preventative and health screenings. Working collectively with funders, other hospitals and healthcare providers and safety-net organizations, Roper St. Francis addresses these identified priorities through community-based grant programs.

SHEKANA'S STORY

"AccessHealth was awesome. They changed me....They have been my angels."

For most of her 30 years, Shekana hasn't had a primary care doctor. Instead, she went to the Bon Secours St. Francis Hospital Emergency Room whenever she had a medical need, even minor ones. After a string of 12 ER visits, an AccessHealth care navigator helped her enroll in the program, find her "own doctor" and have painful chronic gallstones removed. Now she has changed the way she accesses care and trusts her healthcare providers.

CHANGING MOMENTS THROUGH GIVING IN 2014

Continue supporting Roper St. Francis by visiting www.rsfhfoundation.org. Large or small, gifts make every moment matter for our patients and the community we serve.

Donors who advanced the Roper St. Francis mission through philanthropy	1,057
Individuals and organizations who joined the Roper Xavier Society	572
10 year Consecutive Roper Xavier Society Members	105
Number of patients that received comfort and reassurance by the Wellness Navigator in the Donna Fielding Cancer Wellness Institute	700
Minutes saved using the rooftop helipad, funded 100% through philanthropy	1,531
Total flights to the rooftop helipad	50
Nurses who benefited from donor-funded scholarships	55
Number of programs enhanced through philanthropy	26
Contributions to Roper St. Francis Foundation in 2014	\$7.6 million
Number of HIV clients that received care	700
Number of spinal cord injury patients that received care	82

ROPER ST. FRANCIS, EVERY MOMENT MATTERS

Roper St. Francis is the South Carolina Lowcountry's only private, not-for-profit healthcare system. Our healthcare system consists of more than 90 facilities across seven counties. With more than 5,200 employees, Roper St. Francis is one of Charleston's largest non-governmental, private employers. Its medical staff of more than 800 physicians represents every specialty.
